Crime in California

2017

XAVIER BECERRA, ATTORNEY GENERAL
CALIFORNIA DEPARTMENT OF JUSTICE

Crime in California 2017 presents an overview of the criminal justice system in California. Current year statistics, provided by California law enforcement agencies, are presented for reported crimes, arrests, dispositions of adult felony arrests, adult probation, criminal justice personnel, civilians' complaints against peace officers, domestic violence-related calls for assistance, anti-reproductive-rights crimes, and law enforcement officers killed or assaulted.

Highlights for 2017:

Crimes

- The violent crime rate per 100,000 population increased 1.5 percent from 2016 to 2017, while the property crime rate decreased 2.1 percent. (Table 2)
- From 2016 to 2017, the homicide rate decreased from 4.9 to 4.6 per 100,000 population. Rates, not actual homicide counts, are used to accommodate for population fluctuations from year to year. (Table 2)
- From 2016 to 2017, the robbery rate increased 2.7 percent, while the burglary rate decreased 6.7 percent. (Table 2)
- The motor vehicle theft rate decreased 5.3 percent in 2017 (from 448.9 in 2016 to 424.9 in 2017 per 100,000). (Table 2)
- From 2016 to 2017, the arson and rape rates increased 10.7 and 6.9 percent, respectively. (Table 2)

Arrests

- The 2017 total arrest rate of 3,565.2 per 100,000 population at risk is 2.5 percent lower than the 2016 total arrest rate of 3,655.1. (Table 17)
- From 2016 to 2017, the adult total arrest rate decreased 1.9 percent and the juvenile total arrest rate decreased 11.0 percent (per 100,000 population at risk). (Table 17)
- From 2016 to 2017, the total felony arrest rate decreased 1.3 percent and the total misdemeanor arrest rate decreased 2.9 percent (per 100,000 population at risk). (Table 17)
- From 2016 to 2017, the total violent offense arrest rate increased 1.9 percent. The homicide and robbery arrest rates increased 4.3 and 6.6 percent, respectively, while the rape arrest rate remained the same (per 100,000 population at risk). (Table 22)
- From 2016 to 2017, the total felony property offense arrest rate increased 1.9 percent.

- The burglary arrest rate decreased 3.2 percent, while the theft, motor vehicle theft, and arson arrest rates increased 6.3, 4.3, and 21.6 percent, respectively (per 100,000 population at risk). (Table 22)
- From 2012 to 2017, the total felony property offense arrest rate decreased 32.3 percent. The burglary and theft arrest rates decreased 58.3 and 23.2 percent, respectively, while the motor vehicle and arson arrest rates increased 39.0 and 40.6 percent, respectively (per 100,000 population at risk). (Table 22)

Note:

Due to changes in the law, caution should be used when comparing drug offense arrests to prior years. In November 2016, California voters passed Proposition 64 which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for numerous state statutes.

Dispositions

- In 2017, 66.0 percent of adult felony arrests resulted in conviction. (Table 37)
- Probation with jail continues to be the most frequent sentence given for adult felony arrest convictions. (Table 38A)
- From 2016 to 2017, the percentage of dispositions resulting in incarceration in a state institution have increased from 18.5 to 19.6. (Table 40)
- From 2016 to 2017, the percentage of property and drug offense dispositions resulting in incarceration in a state institution have increased from 15.8 and 10.2 to 16.6 and 11.5, respectively. (Table 40)

Adult Probation

- From 2016 to 2017, there was a 14.8 percent decrease in the rate of adults placed on probation and a 15.3 percent decrease in the rate of adults removed from probation. (Table 42)
- From 2016 to 2017, there was a 13.8 percent decrease in the rate of adults placed on felony probation, and a 17.8 percent decrease in the rate of adults placed on misdemeanor probation. (Table 42)
- In 2017, the total number of adults on active probation is 233,046 - its lowest since 1986. (Table 41)

Criminal Justice Full-Time Personnel

- From 2016 to 2017, the number of full-time criminal justice personnel increased 0.7 percent. (Table 44)
- From 2016 to 2017, the number of law enforcement, prosecution, public defense, and probation personnel each increased (0.4, 2.8, 2.4, and 0.6 percent, respectively). (Table 44)

Citizens' Complaints Against Peace Officers

- While the total number of reported citizens' complaints against peace officers increased from 15,406 in 2016 to 16,841 in 2017, the total number of reported criminal complaints fell to its lowest since 1987 (895). (Table 46)

Law Enforcement Officers Killed or Assaulted

- The total number of law enforcement officers assaulted in the line of duty increased from 9,933 in 2016 to 10,770 in 2017. (Table 49)
- From 2016 to 2017, the total number of law enforcement officers assaulted with a firearm increased 25.1 percent, while the number assaulted with a knife or other cutting instrument decreased 9.9 percent. (Table 50)

Notes: Rates may not add to totals because of rounding.

Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 52).

Dash indicates data not available.

^a Prior to 2005, the Los Angeles Police Department had included child abuse and domestic violence simple assaults in its aggravated assault statistics. This change may have contributed to the large decrease in aggravated assaults from 2004 to 2005.

^b Includes estimated annual 1995 data provided by the Oakland Police Department.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. For additional information, see Appendix 1, Data Characteristics and Known Limitations.

² Data for arson crimes are not available prior to 1980. For additional information, see Appendix 1, Data Characteristics and Known Limitations.

Note: Dash indicates that a percent change was not calculated due to data definition change.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. For additional information, see Appendix 1, Data Characteristics and Known Limitations.

Notes: Statewide arrest data from 1952 through 1965 can be found in Table 16 of *Crime in California*, 2006.

Since 1966 there have been many changes in laws, data collection procedures, etc.; therefore, caution should be used when comparing data for the 1966 through 2017 period.

Juvenile misdemeanor arrest data for 1973 through 2017 are not comparable to prior years because of changes in reporting criteria.

^aIn November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. These changes affected the offenses reported. Caution should be used when comparing felony and misdemeanor arrest data to prior years. For additional information, see Appendix 1, Data Characteristics and Known Limitations and Appendix 3, Arrest Offense Codes.

^bIncludes estimated annual data for the Bakersfield Police Department and the Oakland Police Department. For additional information, see Appendix 1, Data Characteristics and Known Limitations.

¹Status offenses include truancy, incorrigibility, running away, and curfew violations. These offenses can only be committed or engaged in by a juvenile.

²Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 52).

³Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 52).

^aIn November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. These changes affected the offenses reported. Caution should be used when comparing felony and misdemeanor arrest data to prior years. For additional information, see Appendix 1, Data Characteristics and Known Limitations and Appendix 3, Arrest Offense Codes.

¹Status offenses include truancy, incorrigibility, running away, and curfew violations. These offenses can only be committed or engaged in by a juvenile.

²Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 52).

³Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 52).

^a In November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. These changes affected the offenses reported. Caution should be used when comparing felony and misdemeanor arrest data to prior years. For additional information, see Appendix 1, Data Characteristics and Known Limitations and Appendix 3, Arrest Offense Codes.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. For additional information, see Appendix 1, Data Characteristics and Known Limitations.

² In November 2016, California voters passed Proposition 64 which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for numerous state statutes. Caution should be used when comparing drug offense arrests to prior years.

^a In November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. These changes affected the offenses reported. Caution should be used when comparing felony and misdemeanor arrest data to prior years. For additional information, see Appendix 1, Data Characteristics and Known Limitations and Appendix 3, Arrest Offense Codes.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape.

² For additional information, see Appendix 1, Data Characteristics and Known Limitations.

³ In November 2016, California voters passed Proposition 64 which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for numerous state statutes. Caution should be used when comparing drug offense arrests to prior years.

⁴ Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 52).

^aIn November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. These changes affected the offenses reported. Caution should be used when comparing felony and misdemeanor arrest data to prior years. For additional information, see Appendix 1, Data Characteristics and Known Limitations and Appendix 3, Arrest Offense Codes.

¹Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 52).

Notes: This table presents the number and type of final dispositions and sentences for felony arrests reported to the California Department of Justice by law enforcement agencies, district attorneys, and courts. Caution should be used when interpreting this information because arrests and dispositions are underreported. It should also be noted that approximately 1.3% of the adult felony convictions contained in this data represent a disposition that the California Department of Justice was unable to positively link to a criminal record; accordingly, an arrest event was created based solely upon the disposition information provided. There is no way for the California Department of Justice to estimate the exact percentage of underreported dispositions. The nature, extent, and reasons for this underreporting vary from agency to agency and from year to year.

Source: Data extracted from the California Department of Justice Criminal History System. For additional information, see Appendix I, Data Characteristics and Known Limitations.

Notes: This table presents the number and type of final dispositions and sentences for felony arrests reported to the California Department of Justice by law enforcement agencies, district attorneys, and courts. Caution should be used when interpreting this information because arrests and dispositions are underreported. It should also be noted that approximately 1.3% of the adult felony convictions contained in this data represent a disposition that the California Department of Justice was unable to positively link to a criminal record; accordingly, an arrest event was created based solely upon the disposition information provided. There is no way for the California Department of Justice to estimate the exact percentage of underreported dispositions. The nature, extent, and reasons for this underreporting vary from agency to agency and from year to year.

Data include convictions for both misdemeanors and felonies.

Percentages may not add to subtotals or 100.0 because of rounding.

^a In November 2014, California voters passed Proposition 47, which reduced some felony offenses to misdemeanors. Caution should be used when comparing felony arrest disposition data to prior years.

¹ The "state institutions" category includes sentences to death, prison, California Rehabilitation Center (civil addict), and the Division of Juvenile Justice (youth authority).

² The "probation" category includes straight probation, fine, and other (no sentence given, sentence suspended, and sentence stayed).

³ Violent offenses include burglary, theft, motor vehicle theft; forgery, check, and access card offenses; and arson.

⁴ Property offenses include burglary, theft, motor vehicle theft; forgery, check, and access card offenses; and arson.

Note: These data include adults placed on supervised probation only. Data are limited to original grants of probation and do not include subsequent grants of probation to persons already under supervised probation in the same county.

^a In 2016, Sacramento County Probation discovered inaccurate reporting of caseload counts from 2013-2015 resulting in a corrected beginning felony caseload count for 2016.

^b In November 2014, California voters passed Proposition 47 which reduced numerous state statutes from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor data to prior years.

^c San Bernardino County Probation revised their beginning caseload counts for 2014. The revision resulted in a decrease of almost 9,000 felony cases and an increase of almost 400 misdemeanor cases.

These data include adults placed on supervised probation only. Data are limited to original grants of probation to persons already under supervised probation in the same county.

Rates per 100,000 population at risk for 2015 will not match previously published data.

^a In November 2014, California voters passed Proposition 47 which reduced numerous state statutes from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor data to prior years.

¹ Rates are based on the adult population at risk (18-69 years of age) for each year (see Table 52).

² "Other" includes transfer of jurisdiction from one county to another, death, sentence vacated, successful appeal, deportation, etc.

¹The passage of Assembly Bill 196 required that county-level child support programs, previously administered by district attorneys, be operated by local child support agencies. This accounts for the large decrease in prosecution personnel since 2001.

Notes: Data collection began in 1981.

Because of the individual nature of the requirements of Penal Code section 832.5(a), reporting definitions and procedures vary among reporting agencies.

The data collected under Penal Code section 13012(e) are accurate and complete to the extent that the contributing agencies met reporting obligations.

¹ Based on a survey conducted in 2004, it is estimated that complaints from inmates in prisons and jails may constitute approximately one-third of all complaints reported by law enforcement agencies.

^a The increase in the number of reported non-criminal complaints and the decrease in the number of reported felony complaints result from reporting-policy changes made by two law enforcement agencies.

Source: Citizens' Complaints Against Peace Officer counts are obtained from an annual survey conducted in January of the following statistical year.

Notes: Expanded categories of complaint findings and profiling data collection began in 2016 as a result of the passage of Assembly Bill 953 (2015).

Reporting agencies may use more findings than those captured on the annual survey. Complaints reported in previous years may be finalized and their findings reported in subsequent years. Consequently, the sum of the findings may not add up to the total reported.

More than one type of profiling complaint can be reported per citizen complaint. Consequently, the total number of profiling complaints is less than the sum of the types of complaints.

Because of the individual nature of the requirements of Penal Code section 832.5(a), reporting definitions and procedures vary among reporting agencies. The data collected under Penal Code section 1302(e) are accurate and complete to the extent that the contributing agencies met reporting obligations.

¹ Penal Code section 13730 does not require that the type of weapon involved in a domestic violence-related call be reported.

² Hands, feet, etc.

³ Prior to 1989, the "personal weapon" category was not recognized by all reporting agencies as a type of weapon. When those agencies began reporting personal weapon calls as cases involving weapons, they did not provide the type of weapon designation. This accounts for the large increase in "not reported" weapons in 1989 and 1990.

^a In April 2002, law enforcement agencies were instructed to report personal weapons only if the assault resulted in an injury (aggravated assault).
^b The San Francisco Police Department was unable to provide complete data for 1997, and did not report data for 1998 and 1999 because of computer problems.
^c The Oakland Police Department was unable to provide 1995 data. In 1994, this department reported 5,237 domestic violence-related calls for assistance.

^d Data collection began in July 1986; therefore, only six months of data are available and displayed for 1986.

Data Characteristics and Known Limitations

CRIMES

Uniform Crime Reporting (UCR) Program

- Crime data from the UCR Program are available from 1952 to 2017.
- The number of reported homicide, rape, and aggravated assault crimes represents known victims; while for robbery, burglary, larceny-theft, motor vehicle theft, and arson, the number represents known incidents.
- If multiple crimes occur during the same event, only the most serious (based upon a hierarchy) is counted. Arson is the exception.
- Law enforcement agencies began submitting arson crimes data in 1979; however, 1980 was the first year of complete reporting. Agencies must report as arson only fires determined through investigation to have been willfully or maliciously set. Attempts to burn are included in this offense, but fires of suspicious or unknown origins are not.
- In 2011, the lower limit of felony theft in California was raised from \$400 to \$950. It was not feasible to adjust the California Department of Justice's (DOJ) data collection process to collect the new lower limit of felony larceny-theft, and consequently, it is no longer possible to distinguish felony from misdemeanor larceny-theft. Therefore, it was decided to include total larceny-theft crime in the property crime category regardless of value.
- In 2013, the Federal Bureau of Investigation's UCR Program revised the definition of "forcible rape" (the carnal knowledge of a female forcibly and against her will) to "rape," which is now defined as "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim."

The California DOJ implemented this definition change in January 2014. During 2014, agencies were encouraged to report using the new definition, but were allowed to report under the historical definition while transitioning their reporting systems.

All rape data is presented in this publication. Percent change in crime rates are not calculated when the base year rape data was submitted under the old definition of rape.

ARRESTS

Monthly Arrest and Citation Register (MACR)

- Arrest data from the MACR reporting system are available from 1957 to 2017.
- If a person is arrested for multiple offenses on the same day, MACR selects only the most serious offense based on the severity of possible punishment.
- Felony arrest counts may include some misdemeanor warrants for felony offenses.
- The subjectivity of the classification and labeling process must be considered in analyses of race/ethnic group data.
- The Bakersfield Police Department was unable to provide arrest data for February through December 1995. The Oakland Police Department was unable to provide any arrest data for 1995. Estimates for both agencies were added to the 1995 statewide totals for publication trend tables.
- Beginning in 2004, the population category of "other" for race/ethnic group includes the Department of Finance's race/ethnic group of "multi-racial."

- In 2011, there were notable changes in California law that affected arrest data. First, the lower limit of felony theft was raised from \$400 to \$950, contributing to the decline in felony theft arrests and the increase in misdemeanor theft arrests. Second, some misdemeanor marijuana statutes were re-classified as infractions, leading to a significant decline in misdemeanor marijuana arrests.
- In 2014, the definition of rape changed. Refer to the Crimes section for more detailed explanation and Appendix 3 for a list of included offenses codes.
- In November 2014, California voters passed Proposition 47 which reduced numerous state statutes from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor arrest data to prior years.
- In November 2016, California voters passed Proposition 64 which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for numerous state statutes. Caution should be used when comparing drug offense arrests to prior years.

DISPOSITIONS OF ADULT FELONY ARRESTS

- Adult felony arrest disposition data are extracted annually from the California Department of Justice Criminal History System. The data statistically captures the number of adult-level final dispositions that occur each year as a result of a felony arrest and are displayed by the year of disposition regardless of the year in which an arrest occurred.
- Disposition data do not reflect the actual number of final dispositions occurring each year. Fluctuations from year to year may not necessarily be the result of actual occurrences in the criminal justice system, but may reflect the degree to which reports of dispositions were reported and processed.

- “Final disposition” refers to the last adult-level legal action that is reported prior to the close of the annual file. Final disposition can occur at the law enforcement, prosecutorial, or court level. Intermediate dispositions (diversion programs, suspended proceedings, or subsequent actions) are not included in the data.
- Dispositions that occur at the law enforcement or prosecutorial level involving releases, rejections, or resolutions can be reported in one calendar year file, proceed to adjudication at the court level, and then be reported again in a subsequent year file. The law enforcement release or prosecutorial rejection reported in the prior year’s file is not retroactively updated or removed.
- If a person is arrested for multiple offenses, the extract selects only the most serious offense based on the severity of possible punishment. If there are multiple dispositions, the extract selects the most serious disposition and the associated offense.
- Disposition data on state institutional commitments may vary from information compiled and reported by other state agencies because of differences in the data collection systems and criteria.
- The adult felony arrest disposition file includes some persons whose age at arrest was under 18. These minors received a final disposition in adult court under provisions of Welfare and Institutions Code sections 602, 707(a), 707(b), 707(c), and 707.1(a).

ADULT PROBATION

- Probation data include adults placed on supervised probation only. Court probation, diversion, and summary probation data are not included.
- Adult probation data are limited to original grants of probation and do not include subsequent grants of probation to those already under supervised probation in the same county. Probationers are counted for each jurisdiction in which they are on probation.
- From 2001 to 2005, San Francisco did not report adult probation data. San Francisco resumed reporting in 2006.
- Counts for adults on active probation for felony offenses may also include adults on probation for misdemeanor offenses for the following counties and years: Contra Costa (2000–2017), Kern (2010–2017), Lake (2001–2012), Merced (2003–2016), Sacramento (2003–2015), Shasta (2016–2017), Siskiyou (2000–2012), Tulare (2000–2009), and Yolo (2000–2009).
- Some counties may have counted individuals on Post Release Community Supervision.
- In 2014, the San Bernardino County Probation Department discovered inaccurate probation statistics due to a flaw in their case management records system. Correcting the flaw resulted in a probation caseload decrease of 10,000 from previous years.
- In 2016, the Sacramento County Probation Department discovered that revoked and reinstated counts were not accurately reported in the data submitted for the reporting periods 2013–2015. Correcting the reporting practice resulted in a reduced beginning felony caseload for 2016.

CRIMINAL JUSTICE PERSONNEL

- The UCR definition of law enforcement personnel specifies that law enforcement agencies report only personnel paid by funds designated for law enforcement.
- The 1996 data collection survey forms were revised in an attempt to collect counts on the number of criminal justice personnel employed by prosecutors, public defenders, and probation departments, regardless of the funding source. Prior to 1996, counts excluded state and federally funded positions.

CITIZENS' COMPLAINTS AGAINST PEACE OFFICERS

- Data on citizens' complaints against peace officers have been collected since 1981. Data are available as statewide totals only.
- Because of the nature of the requirements of Penal Code section 832.5, reporting definitions and procedures may vary among individual reporting agencies.
- Based on a survey conducted in 2004, it is estimated that approximately one-third of complaints against peace officers were made by inmates in prison and jails.
- In 2007, two law enforcement agencies adjusted their reporting policies, substantially affecting the number of reported non-criminal and felony complaints.

DOMESTIC VIOLENCE-RELATED CALLS FOR ASSISTANCE

- Reporting of domestic violence-related calls for assistance began in July 1986. The first full year of reporting was 1987.
- The definition of "domestic violence" is subject to varying interpretations by law enforcement agencies. As a result, different types of domestic relationships are included in the database.
- The San Francisco Police Department did not report domestic violence data from April 1997 to December 1999.
- Included in the data are any cases that resulted in a report being written by the responding law enforcement agencies. Therefore, data include both cases where an arrest was made and those where circumstances did not warrant an arrest.
- In April 2002, law enforcement agencies were instructed to report personal weapons (hands, fists, or feet) only if the assault resulted in an injury (aggravated assault). This instruction resulted in a notable decrease in the number of personal weapons reported.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED (LEOKA)

- LEOKA data from the UCR Program are available from 1990 to 2017.
- State correctional officers and federal agents are not included in LEOKA data.

Appendix 2

Computational Formulas

CRIMES

Crime rate – A crime rate describes the number of crimes reported to law enforcement agencies for every 100,000 persons within a population. A crime rate is calculated by dividing the number of reported crimes by the total population. The result is then multiplied by 100,000. For example, in 2017 there were 56,609 robberies in California and the population was 39,613,045. This equals a robbery crime rate of 142.9 per 100,000.

$$\frac{56,609}{39,613,045} = 0.0014290 \times 100,000 = 142.9 \text{ per 100,000}$$

Clearance rate – A clearance rate describes the percentage of clearances reported to the number of crimes reported. A clearance rate is calculated by dividing the number of clearances by the number of crimes reported. The result is multiplied by 100. For example, in 2017 there were 1,144 clearances for homicide crimes and 1,829 homicides reported. This equals a homicide clearance rate of 62.5 percent.

$$\frac{1,144}{1,829} = 0.62548 \times 100 = 62.5 \text{ percent}$$

ARRESTS

Arrest rate – An arrest rate describes the number of arrests made by law enforcement agencies per 100,000 total population or per 100,000 population considered to be at risk for arrest. Regardless of the population used, both rates are calculated in the same manner. An arrest rate is calculated by dividing the number of reported arrests by the desired population. The result is multiplied by 100,000.

For example: 1) In 2017, there were 306,024 total felony arrests and the total population was 39,613,045, which equates to a 772.5 arrest rate; 2) In 2017, there were 306,024 total felony arrests and the population at risk (10-69 years of age) was 30,771,994, which equates to a 994.5 arrest rate.

$$1) \quad \frac{306,024}{39,613,045} = 0.0077253 \times 100,000 = 772.5 \text{ per 100,000 population}$$

$$2) \quad \frac{306,024}{30,771,994} = 0.0099449 \times 100,000 = 994.5 \text{ per 100,000 population at risk}$$

ADDITIONAL INFORMATION

Percent change – A percent change describes the change in number or rate from one year to another. A percent change is calculated by subtracting the base-year data from the current-year data. The result is divided by the base-year data and multiplied by 100. For example, in 2017 the robbery crime rate was 142.9. In 2012, the robbery crime rate was 149.3. The percent change in rate from 2012 to 2017 is a 4.3 percent decrease.

$$\frac{142.9 - 149.3}{149.3} = -0.04287 \times 100 = -4.3 \text{ percent}$$

Populations at risk – The Arrest tables in this report (16, 17, 22, and 27) include three comparison populations: total (10–69 years of age), adult (18–69 years of age), and juvenile (10–17 years of age).

When a series of rates is calculated using different populations, the rate calculated for the total will not equal the sum of the rates for the parts. For example, the arrest rate calculated using the total at-risk population will not equal the sum of the juvenile arrest rate (based on the juvenile at-risk population) and the adult arrest rate (based on the adult at-risk population).

Also, the percent changes calculated for these at-risk rates cannot be added. This is because the percent change in the total arrest rate is the result of independent changes in both the number of arrests and the at-risk populations of adults and juveniles.

All Other Misdemeanor Offenses

Notes: These codes are valid for 2017 data and may not be applicable for prior years.

"All Other Felony Offenses" also includes sections in the Election Code and Water Code.

"All Other Misdemeanor Offenses" also includes sections in the California Code of Regulations, City or County Ordinances, Civil Procedure Code, Election Code, Public Utilities Code, Uniform Fire Code, and Water Code.

Arrests for attempted offenses are reported in their respective categories with the exception of homicide and manslaughter, which are captured in the felony assault category.

*These code sections can be either a felony or a misdemeanor.

Acknowledgments

The California Department of Justice is mandated by statute to submit an annual *Crime in California* report to the Legislature. The department extends its appreciation to all the law enforcement agencies that provided complete and timely data. This report would not have been possible without their cooperation.
